## Summary

I'm captivated by how digital experiences can improve people's lifestyles and reshape our society. While pursuing my Master of Information Technology, I have been developing web applications alongside my studies for over a year. Throughout this journey, I realized that I have a deep passion for learning and applying new technologies to real-world projects. I'm eager to leverage these skills across diverse domains.

## Education

<b>University of Auckland</b>	Auckland, New Zealand
Master of Information Technology	March 2023 - Current
Web technologies(A+) for full-stack software development, Python(A+) for massive data analysis, and Java(A) for object-oriented design principles and back-end applications.
